Languages

English

Reading: very good **Writing:** good **Speaking:** good

Education

Under Graduate

Akdeniz University, Antalya

Computer Science Engineering 2015 – 2019

High School

Antalya High School, Antalya

Matematik-Fen 2011 – 2015

Skills

Programming Languages

Basic: Python

Intermediate: Kotlin, Bash Script, PHP, JavaScript, HTML, CSS

Advanced: Java

Programming Skills

- **Frameworks & Libraries** Primefaces, React JS, Spring Framework Ecosystem(Spring Boot, Spring Cloud, Spring Security, Spring Web etc.)(Advanced)
- **Database Management** SQL, MySQL, PostgreSQL, ORM(MyBatis, Hibernate) - **Build Tools** :Composer, NPM Maven
- **Project Management**Jira, GitLab
- **VCS** SVN, Git
- **CI Tools** Jenkins, GitLab CI, GitHub Actions
- Object Oriented Paradigm
- Flexible Software Architecture Design (Back-End (DB & Business Layers))
- Microservices Architecture (Spring Boot Services)
- Multi Module Project Structure (with maven)
- Centralized Authentication (OAuth 2.0 Spring Security + Keycloak)
- Devops Cycle, Linux Server Management,
- Office Apps, Linux Terminal(High-Level), Effective Search Engine Usage

Experiences

Work Experiences

Jr. R&D Software Engineer

Date: 07/2018 - 08/2020 (2 year 1 months)

Place: Cantek Group

Job Description:

- Using Hybrid Database Architectures with combining PostgreSQL + Cassandra technologies
- Developing Java Microservices with Spring Boot (mostly Spring Framework Core, Spring Security and Spring Cloud Modules) and deploying them as a Docker containers on the server
- Using Docker, GitLab, Jenkins, JFrog Artifactory technologies.
- Working on a system which is running on Ubuntu 16.04 server and apply DevOps by using CI/CD Software that each one is running inside separate Docker containers.
 - Managing source code via GitLab
 - Compiling Spring Boot applications with Maven via Jenkins
 - Serving JARs on the JFrog Artifactory via Jenkins

Software Engineering Internship (2 months)

- Research Docker, GitLab, Jenkins, JFrog Artifactory technologies.
- Comparing Project Management Tools (Jira, Trello, Taiga.io, GitLab Tools).
- Running GitLab - Jenkins - JFrog Artifactory in separate Docker containers.
- Setup a system on Ubuntu 16.04 server to
 - Managing source code via GitLab
 - Compiling Spring Boot applications with Maven via Jenkins
 - Serving JARs on the JFrog Artifactory via Jenkins

Java Developer

Date: 06/2016 - 06/2018 (2 year)

Place: Akdeniz University BAUM

Job Description:

- Developing Java Web Apps (Spring MVC) with using Spring framework
- Providing communication between web apps and database over RESTful Service
- Compiling applications with Maven, sending them to the SVN environment, serving them on the Tomcat Server via Jenkins.

Volunteer (2 months)

- Web page design using the Bootstrap library with HTML5-CSS3-JavaScript for Spring, MVC Web Apps

Freelance Works

IconConference2017 Website

Job Description: A personal wordpress conference website design and web application to upload abstracts developed with PHP

Personal Projects

Spring VIP

Home Page: <https://springvip.yazilim.vip>

Description: A Java Spring Library that provides helpful generic and utility classes. Some of features provided by library are generic CRUD Service and Rest controllers. See more from documentation

maescript

Home Page: <https://yazilim-vip.github.io/maescript/>

Description: Very useful set of linux commands

Attended Organizations

UBMK 17: Crew

3. Antalya Bilim Şenliği: Participant

Linux Seminar: Undergraduate Seminar
